I think we'd need a couple of weeks to get everybody in a room. Aim for the week on May 9th? Early in the week, late in the week?

Not very often, but I was just talking with Joe V. and thought it may be a good idea to get down there soon. This may be a good reason to do this. How soon are we talking?

Mike, do you ever come down to Helena to be in the local EPA office? I'm thinking I'd like to get you in a room with the DEQ folks working on CFAC so we might have a wider ranging discussion. Let me know, if not, maybe we could set up a conference call?
